EDUCATION

Northeastern University, Boston, MA   Sept. 2023 – Present
Khoury College of Computer Sciences   Expected graduation: May 2025
Candidate for a Master of Science in Computer Science
Related courses: Programming Design Paradigm, Foundations of Artificial Intelligence

Ramaiah Institute of Technology, Bengaluru, India   July 2023
Bachelor of Engineering in Computer Science & Engineering   GPA: 8.98/10.0
Related courses: Algorithms, Data Structures, Databases, Software Engineering, Object Oriented Programming

TECHNICAL KNOWLEDGE

Languages:	Java, C++, Python, JavaScript
Technologies:	HTML, CSS, React, REST APIs, SQL.
Skills:	Database Systems, Backend Development, Machine Learning, Algorithms, Full Stack Development, Web Development

WORK EXPERIENCE

Sabre Corporation, Bengaluru, India   Jan 2023 – July2023
 Software Development Engineer Intern

- Programmed product features, bug fixes and security enhancements in C# and OracleDB on the Radixx Res product in the Radixx vertical.
- Designed and developed a dashboard in React, Express, NodeJS, JavaScript and OracleDB to provide enhanced accessibility to sales data aimed at reducing and resolving sales disputes.
- Awarded 2nd place in Intern Hackathon organized by the company.

Dell Technologies, Bengaluru, India   Apr 2022 – June 2022
Undergraduate Intern

- Developed a system using Python leveraging Bayesian ARM model to detect and flag combinations of parts that may cause a high product failure rate.

Samsung PRISM, Bengaluru, India   Oct 2021 – Apr 2022
Research Intern

- Developed an RNN model in Python using TensorFlow as a part of the project 'On Device Handwritten Text Generation' aiming to generate handwritten text.
- Contributed to creating a tool to extend the benchmark IAM dataset by 40%.

PROJECTS

Descriptive Examination Answer Script Evaluation (Funded)   Feb 2022 – Aug 2022

- Built a tool in Python for Descriptive Answer Evaluation of subjective answers in semester-end examinations.
- Compared various NLP Techniques, including BERT, word embeddings for finding semantic similarity between model answers and student answers.

INTERESTS/ACTIVITIES

- Published technical paper 'Quantum Computing- The next big leap in the World of Computation' in IEEE (ISSN: 2766-2101).
- Core team member at Apple Developers Group, Ramaiah Institute of Technology (Oct 2019 – Oct 2022).
